## NUCLEAR DECOMMISSIONING & WASTE MANAGEMENT SUMMIT 2020

.....  
12 - 13 FEBRUARY 2020 / LONDON, UK

ACI's 7<sup>th</sup> Nuclear Decommissioning and Waste Management Summit will be taking place in London, UK, on 12<sup>th</sup>-13<sup>th</sup> of February 2020.

The two day event will bring together senior executives from the key industry stakeholders from Energy Providers, Plant Owners & Operators, Industry Consultants & Experts, Lawyers, Purchasing and Procurement Management Professionals, Nuclear Regulators, Nuclear Technology Companies, Industry Investors, Asset Management Companies, Nuclear Engineers and Safety Inspectors, Decommissioning Managers, Waste Management Companies, Governmental representatives, Radiation and health protection agencies, Packaging & Transportation Officials, Academic Institutions, Research Organisations and Market Analysts.

The event will provide excellent opportunities to learn from high profile speakers sharing their knowledge and expertise on overcoming the current challenges involved in the decommissioning of nuclear power plants and radioactive waste management.

You will also have the chance to network with industry leaders from across the entire value chain, to maximise the opportunities arising in the nuclear decommissioning sector, whilst also discovering the latest technologies and solutions that facilitate the storage and management of spent fuel.

You are kindly invited to ACI's 7<sup>th</sup> Nuclear Decommissioning and Waste Management Summit to discover the key topics and updates from the latest developments in the essential areas of nuclear power plant decommissioning and radioactive waste management.

### Key topics:

- An Overview on the Status of nuclear Decommissioning
- Transition from Operation to Decommission
- Regulatory Challenges and Opportunities in Decommissioning and Waste Management
- French Strategy for Graphite Reactors Decommissioning, potential Synergies with UK Program
- Waste Management Strategies
- Retaining Competency for Safe Transports of Radioactive Waste in Future
- Decommissioning Project Management
- Analysing New Forms of Contract Models
- Investigating Technical Solutions
- Total Cost of Ownership Reduction for Powered Respiratory Protection in Nuclear Facilities
