

such as e-fuels in the automotive and aviation industry, e-fuel production costs challenges and the latest technological advances amongst others.

Join us in Munich for two days of exchanging perspectives, learning and excellent networking opportunities with your peers. You will benefit from numerous interactive sessions, presentations, including case studies, and insightful panel discussions to get the best out of the event.

Key Topics:

- E-Fuels Market Overview
- Exploring the E-fuel Industry Response to Policy & Regulations in This Sector
- E-Fuels as a Positive Disruptor for the Automotive and Trucking Transportation Sector
- Latest Technological Innovation Advances in the Industry
- Assessing the Potential of E-Fuels for the Maritime Industry
- The Challenge of E-Fuel Production Costs
- Sustainable Electricity Logistics for the Creation of E-Fuels
- Successful E-Fuel Plant Case Study
- The Importance of CO₂ Sourcing and Usage in the E-Fuel Production Process
- Evaluating the Potential of E-Fuels for Aviation

ANTWERP, BELGIUM
2 - 3 October, 2019

European Bulk Liquid Storage Conference

Maximising Economic and Environmental Benefits in Refining

Going on to its 7th edition, the European Bulk Liquid Storage 2019 will once again bring senior executives from the liquid storage industry to discuss the latest developments in energy transition trends, digitalisation, the market dynamics impacting supply and demand, strategic and logistic overview of ports infrastructure and will provide an informative & balanced discussion for participants.

Over two days, the event will gather representatives from oil and chemical companies, port authorities, terminal operators, technology providers, suppliers as well as other influential stakeholders across the value chain.

Key topics include:

- Financing Perspectives In The Liquid Storage Industry
- An Outlook on the European Tank Storage Market
- Exploring The Latest Digitalisation Developments For The Tank Storage Industry
- Energy Transition Trends And Their Impact On The Liquid Storage Business
- In Depth Look Into The Advantages For LNG
- Overcoming Logistics Challenges
- In Depth Analysis Of The Oil Storage Market
- In Depth Analysis Of The Storage Market For Chemicals
- Opportunities In Emerging Niche Products
- Analysing The Impact Of IMO 2020 For The Storage Industry

The Climate Chance Summit – Africa 2019 will take place in Accra from October 16th until October 18th at the International Conference Center. It will be a wide gathering of 1000 non-state actors fighting climate change on the African continent, including local governments, businesses, trade unions, environmental NGO's, farmers, women and youth organisations, researchers, etc. It will highlight the engagement of Ghana and more broadly the African actors in fighting climate change.

June 19, 12am
Room NAIROBI 4, located in the World Conference Center Bonn
Platz der Vereinten Nationen 2, 53113 Bonn

Speakers :

- Senator Ronan Dantec, President of The Climate Chance Association and UCLG spokesperson on climate
- Honorable Collins Augustine Ntim, Deputy Minister, Ministry of Local Governments and Rural Development of Ghana
- Honorable Felix Mensah Nii Anang-La, Mayor of Tema, President of NALAG, Ghana
- Mr. Kyekyeku Yaw Oppong-Boadi, UNFCCC Focal point for Ghana
- Jean-Pierre Elong Mbassi, Secretary General of UCLG-A
- Kenneth Amoateng, Abibiman Foundation, Ghana
- BINGO representative : Global Compact TBC

9 themes

- Access to climate finance in Africa
- Developing African cities in a sustainable way
- Agriculture, food and reforestation in Africa
- Renewable energy and energy efficiency in Africa
- Mobility and sustainable transport in Africa
- Adaptation and Water in Africa
- Sustainable Building and Construction in Africa
- Education and Training on Climate Change in Africa
- Circular economy in Africa
