

# **AN EXAMPLE OF HUMBOLDTS AURORAL OBSERVATION AND MAGNETIC DISTURBANCES**

SCHRÖDER, WILFRIED

Geophysical commission, Hechelstrasse 8, D-28777 Bremen, Germany

For the aurora of 1808 Humboldt has been described the relation between it and magnetic disturbances. The importance of the auroras of 1808-1810 will be demonstrated in relation to Humboldt's observations.
